SURFER DAVE IS

sidechained jazz & lofi electronic listening music.

Multi-instrumentalist and producer Surfer Dave invites listeners to let themselves disappear into his colorful jazz chords, comforting melodies, and distinctive ASMR-like "found sounds." Sonically welcoming and immersive, Surfer Dave proudly features only self-made music, without relying on sampling in his songwriting. In addition to his solo material, he is known for his work as a producer for emerging lofi neo soul singer Criibaby (*Friends of Friends*), rising lofi hip hop artist Pandaraps (*Effortless Audio*, *Epidemic Sound*), and collaborations with electronic singer-songwriter & producer Somni (*Friends of Friends*, *Bluewerks*).
